Do You Have SUPER Color Vision? - Do You Have SUPER Color Vision? by BuzzFeedVideo 1,048,141 views 6 years ago 3 minutes, 1 second - Tetrachromacy is the rare ability to see up 100x more **colors**, than the normal human **eye**, can see. If you can get a perfect score on ...

The following puzzles are designed to evaluate the quality of your color vision.

The nuances between the shades will gradually become more subtle.

Ready for your first test?

Which one of these color circles is slightly different?

Ready for your second test?

Can you see the stripes?

You're almost done.

This will be your third and final test.

Which circle is in front?

If you were able to detect every shade differentiation...

You might be a tetrachromat.

Humans normally have three types of cone cells in their eyes...

About 100x more colors.

That's up to 100 MILLION colors.

So, how'd you do? Do you have SUPER color vision?
